

**POWERING
A NEW DIMENSION**

Cleantech Forum 2016 – Lyon - April the 12th

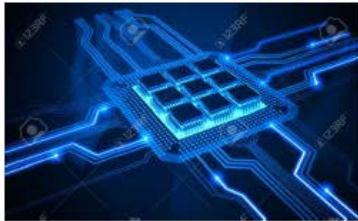

1. Our Technology :

- A new generation of multilayered solid-state li-ion battery :
 - Benefits :
 - Suppress the thermal runaway risks
 - Increase in power and energy density versus conventional Li-ion
 - High performance in a large temperature range
 - Miniaturization possible

2. Our offer:

- A new SMD component for energy micro storage :
 - Solve the problem of integration and autonomy for small electronic devices:

POWERFUL

MINIATURIZED

ECO-DESIGNED

PICK & PLACE

3. Next step:

- Laboratory scale prototype validated
- Industrial manufacturing process validated
- Implementation of our first manufacturing line in progress
- 10M€ fund raising program to finance commercial & industrial development
